Artist Retreat

San Genuario

Vercelli, Italy

Curated by:

Residents

2026

The property is a historic residence once connected to the Abbey and Castle of San Genuario. The building features architectural details that span from the late Renaissance through the Art Nouveau period, reflecting a rich cultural lineage.

Set in the tranquil countryside of Piemonte, the residence is surrounded by nature and heritage while remaining within easy reach of the nearby town of Crescentino, with transport connections to Milan and Turin.

This balance of seclusion and accessibility creates an ideal setting for deep creative reflection, free from urban distraction.

Cascina dell'Arte is an artist retreat housed in a 16th-century farmhouse currently being restored to its former glory.

Designed as an inspiring environment, it offers artists the time and space to focus, experiment, and develop new work.

About

Cascina dell'Arte is a self-guided artists' retreat offering affordable live-create studios with on-site accommodation and shared communal spaces.

Designed for artists seeking time, focus, and immersion, the retreat allows you to live and work in the same place, free from the distractions of daily commuting or urban life.

Each artist is provided with a private personal studio and accommodation for stays of 1 to 3 months, creating the ideal environment for sustained creative exploration.

Whether you are a painter, sculptor, photographer, writer, designer, musician, chef, or any other type of creative, the space offers the freedom to work at your own pace, without deadlines or obligations.

It is a place to experiment, explore new ideas, deepen your practice, and reconnect with your creative rhythm while also allowing for exchange with other artists.

Cascina dell'Arte is not a programme to follow...
But a place to arrive, settle, and create.
